Miss M. Cullis, B.Sc.,

Department of Physiology,

University of Toronto.

Dear Miss Cullis:

Will you be kind enough to let me have an account of your travelling expenses to Canada so that I may have the Bursar send you a cheque for the amount as soon as possible ?

Yours sincerely,

President.

some of my lectures.

I hope to arrive in Toronto early in January, that is what I have asked for in all my passport & sailing arrangements, but apparently it is not possible for me to tell you definitely. I have said I would make myself ready to sail any day after Dec. 14th. I hope I shall be in time to take up work at the beginning of the session.

Yours sincerely

Dear Sir Robert Falconer,

The School authorities here were very glad to get the note re my return to England that you sent to me. I have at last completed my arrangements for teaching for next term. It has really been very difficult as Physiologists with any time on their hands are hardly to be found. By making use of small amounts of time it has been possible. I have been very fortunate in securing Professor Hopkins (of Cambridge) to come & give

I dined with the Laurents' last night + am to dine tonight with some people I met there. So you see I still go on with social engagements. I went + saw Mr Goode who now says I am to come back in September when he will supply me with audiences of thousands! I shall perhaps believe it, if I am officially approached, but not till then.

With renewed thanks + very kindest regards to Lady Falconer + yourself

Yrs very sincerely

Winifred C. Cullis

I am to embark at Noon tomorrow on a Cunarder + I have a cabin to myself thanks I am sure to you telegram

Dear Sir Robert Falconer,

I will write a formal acknowledg-ment of the resolution of the Board of Governors when I get back to England, but before I leave this country I wish very much to express to you, my appreciation of your share in this matter, which adds one more to the already long list of ways in which you have helped to make this visit of mine

to your University so delightfully memorable to me. I feel that I have been helped in every way possible by you, & that Spirit has spread from you to every member of the University with whom I came in contact. Whatever happens in the future whether I come into closer connection with the University or not, I shall always look upon it with a feeling of pride & possession from my association with it in these past months.

I have been carrying on the same Standard of Fullness & Engagements adopted in Toronto since I came here. I have now come in from a very interesting afternoon, the early part (after lunch with Mr & Mrs Cushing Biron) with Professor Lee, Physiologist at Columbia & then with Mr Lamont at Mr Morgan's Library, where Mr & Mrs Morgan were giving a reception to the Officers of the "Blue Devils". Both Mr & Mrs Morgan were awfully kind to me & showed me quite a lot of their treasures, of course the pictures & then a lot of the manuscripts. Keat's Endymion, Thackeray's Rose & the Ring, Dickens's Christmas Carol, Guy Mannering & a whole lot of others. What a glorious place that Library is & what a wonderful collection!
